Searchlight Trip Viewer

Missing Person Image-Location mapped...

Benefits of 'Searchlight Trip Viewer'

1. Rapidly review thousands of images an hour.
2. Display each image's location on a Live-Map display.
3. Provides detailed information on each image and route.
4. View current Aircraft and Weather at the trip location.
5. Export KML/GPX Track-Lines for each image folder.
6. Identify key map regions for image-recognition scanning with 'Searchlight Image Locator'.
7. View Drone/Aerial Videos on the Live-Map display.
8. Extract images from video for 'Image Locator' scans.
